

Our campaign is working. But we're not done.

UNITE HERE Local 5 has been fighting for three years for a fair contract, including preserving pensions for Kaiser workers. On Friday, June 12, Kaiser sent a letter declaring impasse and implementing a 2% wage increase as of the July 10, 2015 paycheck.

For three years, Kaiser has tried to starve us out. Now they are giving us a little wage increase. But they aren't giving us the same contract they gave to California Nurses (CNA) and the Partnership Unions (LMP).

Sign the "Fix it First" card. Let Kaiser know: **we aren't second class.** We led the fight to keep the pension and we deserve the same settlement as the CNA and the LMP.

Kaiser needs to take care of the patients and workers they already have. No new members for Kaiser until they fix it first.
