

KAISER STRIKE DAILY BULLETIN

Day 3: Wednesday, Feb. 4

We had another strong day on the picket lines and huge support from our patients & the community.

We continued to leaflet patients and welcome them. It's important that we encourage patients to come in, especially in the case of an emergency.

Many community supporters joined us on the picket lines, including hotel workers, members of other unions, and a graduate student who wants the right to unionize at the University of Hawai'i.

It's Day 3. We're halfway through. Let's keep fighting!
