

KAISER STRIKE DAILY BULLETIN

Day 4: Thursday, Feb. 5

Kaiser is saying that we are “purposely blocking patients” from entering. We all know this isn’t true. Kaiser knows the patients are on our side. They are trying to draw attention away from the fact that they’re the ones hurting patient care.

We continued to greet patients with aloha, welcoming them in. Many patients positively commented on how kind and organized we are.

Workers went to the State Capitol to talk to legislators. Kaiser is the largest HMO in the state. The state needs to hold Kaiser accountable to setting a good standard for healthcare in Hawai‘i. Many legislators fully support us and our strike.

Let’s finish strong. Let’s turn out big on Friday.
