As workers entered Day 2 of our strike strong and united, the response we received from the community and guests has been overwhelmingly supportive.

- Senator Mazie Hirono released a public statement standing in solidarity with Marriott workers, which went viral on her social media accounts.
- United Public Workers (UPW) pulled members out of a safety conference at the Sheraton Waikiki to honor our strike.
- 4 Hawaiian Telcom workers (members of IBEW Local 1357) honored our strike and didn't cross our picket lines at the Marriott Kyo-ya Waikiki hotels.
- More union leaders and members have joined our Marriott strike picket lines, including Teamsters, Hawaii State Teachers Association, and the Machinists.
- So many workers joined our strike that management gave letters to guests saying guest services are limited or shut down (see our website for examples).
