HMSHost Strike at Daniel L. Inouye International Airport

Local 5 members at HMSHost HNL made history last month with their first ever strike at the airport! Workers showed the company that we are strong and united over the course of the three-day strike, shutting down majority of the food establishments at the airport and sending our message globally—One Job Should Be Enough!

HMSHost Workers Lobby Legislators

Local 5 members working at HMSHost HNL met with Governor David Ige to secure his pledge to support the strike. Governor Ige acknowledged the struggles of the airport workers and committed to reach out to HMS Host. Local 5 members also knocked on the doors of state legislators to ask for their support to make One Job Enough at the Honolulu Airport. Union members from the Bricklayers Union (IUBAC Local 1), Hawaii State Teachers Association (HSTA), United Food & Commercial Workers (UFCW) Local 480, and many more joined in solidarity with Local 5 members.

UNITE HERE members from other cities support HNL Strike

UNITE HERE members from different cities across the country organized actions in their airports in solidarity with HMSHost workers on strike. Union members from San Francisco, Los Angeles, Oakland, San Jose, Phoenix, and Seattle handed informational flyers to travelers—sending the message of Local 5 workers far and wide: the workers united will never be defeated!
